Metal Leaf can add life, light and texture to your artwork. **In this workshop, participants will learn how to apply gold/metal correctly and avoid common errors.** Also discover the varieties of metal and techniques for achieving various effects including embossing, distressing surfaces, incorporating metal leaf into the background, bas relief, antiquing and painting on metal leaf surfaces. These techniques can be used with all mediums.

Supplies to bring: two pieces of **rigid** board – such as Strathmore 500, 300 lb hot press watercolor paper or prepared smooth Gesso board. Your image should be outlined on one of the boards before coming to the Workshop. Adhesive sizing and adhesive sealer by Mona Lisa (preferred for its short wait time to apply metal) or Old World brand; a package of metal leafing: gold, silver, aluminum, copper, variegated or metal leaf-gold; smaller and larger inexpensive soft brushes for applying adhesive; scissors; one quart size plastic bag; old newspapers; and a dust mask is recommended.
